

Animal Cell Worksheet

What are some fun facts about animal cells?

We have 10 interesting animal cell facts so you develop a better understanding of animal cells.

- Not all cells have a nucleus.
- Cells are totipotency.
- Cells can repair themselves.
- Cells are self-destructive.
- The cell is 70% water.
- Cells are self-sufficient.
- Cells are small.
- Cytoplasm in the cell helps it maintain its shape.

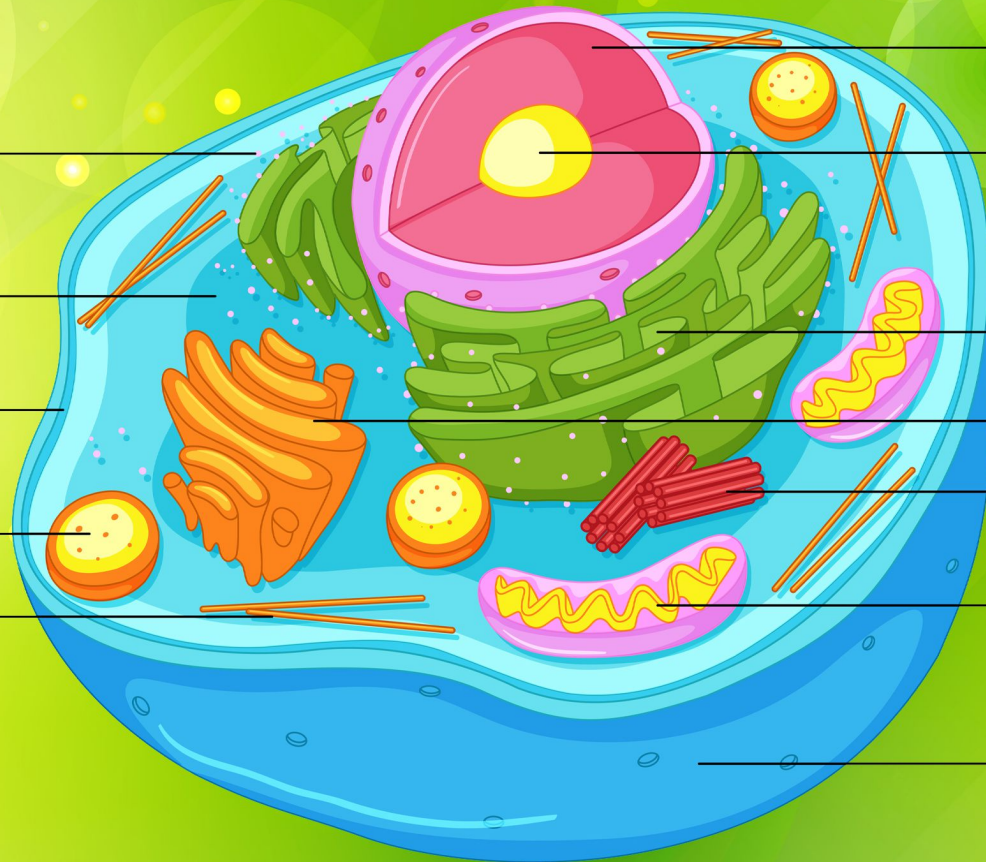

Animal Cell Worksheet

Fill in the blanks

nucleus
cell wall
microtubules
cell membrane
golgi body
endoplasmic reticulum

ribosomes
centrosomes
nucleolus
mitochondrion
lysosome
cytoplasm

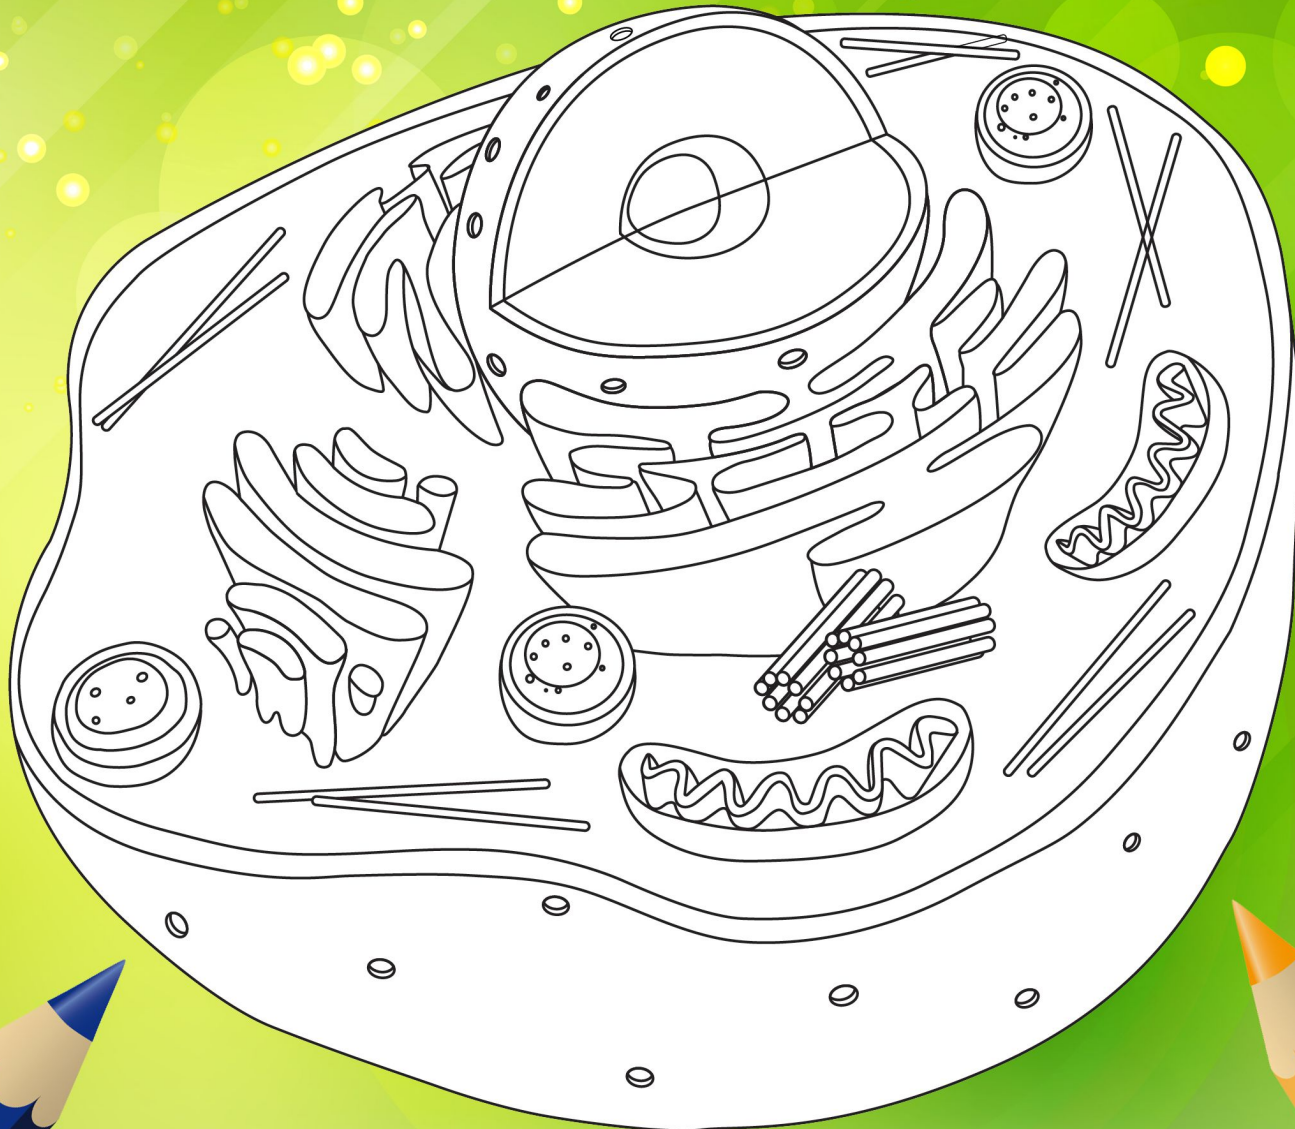

Blank label boxes for labeling the animal cell diagram on the left side.

Blank label boxes for labeling the animal cell diagram on the right side.

Animal Cell Worksheet

Colouring Page

- ribosomes
- centrosomes
- nucleolus
- mitochondrion
- lysosome
- cytoplasm
- golgi body
- cell membrane
- microtubules
- cell wall
- nucleus
- endoplasmic reticulum
